Step 3:

Putting it all together.

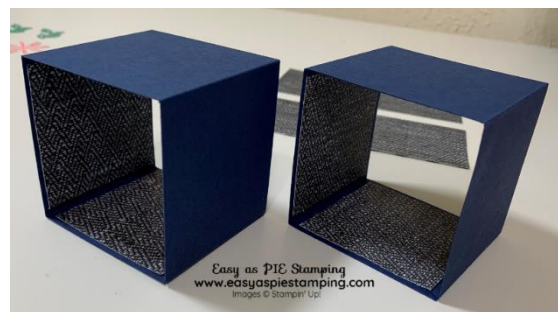

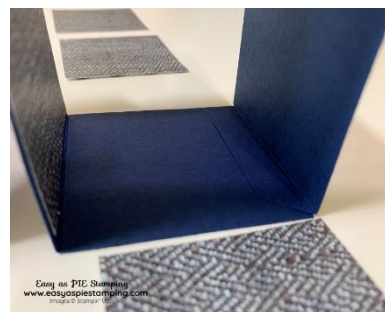

- **MAKE SURE YOU HAVE THE DSP IN THE RIGHT SPOTS AND THAT THE CUBES ARE ORIENTED CORRECTLY. COMPARE TO THE PHOTOS.**
- Place DSP 1 on the inside of the smaller cubes, in the 3rd section from the tabbed end with Seal.
- Place the longer DSP 2 on the inside of the larger cube, in the 1st & 2nd sections from the tabbed end with Seal.

- Place Seal + on each tab and press ends together to create the cubes.

- Use Seal to attach the 2nd piece of DSP on the inside of each of the smaller cubes. Make sure you are covering the section with the tab to hide it.

- Add the DSP to the outside of each cube.

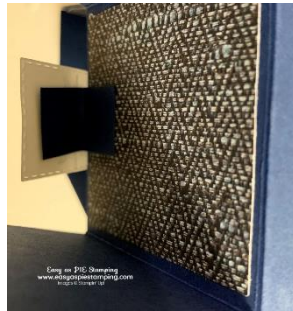

- Tape the small cubes to the larger cube with Seal +. Double check your positioning.

- Add the small tabs to the inside edge of the smaller cubes.

- Place a Dimensional on top of each tab and attach the sentiment to the tabs.
Tip: Draw a pencil line on the back of the sentiment in the middle to help with placement. Place the 2 medium die cut leaves behind the sentiment with glue dots. **Tip:** Place the Glue Dots on the front side of the leaves and press to back of sentiment label.

- Place a Dimensional under the “F” on the sentiment label and attach to the tall cube. Attach the small leaf with Multipurpose Glue.

- Glue 2 daisies together, off-set, with a Dimensional. Color Pearls with Stampin’ Blends and attach to centers of daisies.

- Attach the daisies with Dimensionals to the cubes. Place Glue Dots on the back of the leaves and attach under the daisies. The leaves that are attached near the “Friend” sentiment are attached with a Dimensional and a Glue Dot. (See top right corner of photo)
